Chao Phraya Logistics

critical

priority 100 escalate_to_manager

2 open support ticket(s), oldest open for 9 days; overdue payment of \$5,100; enterprise account

Evidence

- Ticket T1002: CRM workflow automation stopped syncing leads (9 days open)
- Ticket T1003: Invoice export missing tax ID field (3 days open)
- Order O9003: overdue \$5,100
- CRM note 2026-07-07: Operations manager is frustrated because lead sync failed twice this week.
- CRM note 2026-07-05: Enterprise renewal discussion scheduled next month.

Draft Message

Hi Chao Phraya Logistics,

I wanted to follow up regarding 2 open support ticket(s), oldest open for 9 days; overdue payment of \$5,100; enterprise account. Our team would like to escalate this and schedule a support call so we can resolve this properly.

Would you be available for a quick call this week?

Best regards,
Customer Success Team

Architecture Summary

RAG

Retrieves company knowledge from policy and onboarding documents.

Tool Registry

Exposes CRM lookups, RAG search, draft generation, and demo tasks.

LLM Providers

Supports OpenAI now with a generic interface for Anthropic and Gemini.

Pydantic

Validates structured outputs before recommendations are accepted.

Fallback

Deterministic logic protects reliability when LLM output is unavailable.

Evaluation

Checks schema validity, evidence, intent, action type, and hallucinations.
